PRESS RELEASE SUNOCO MARCUS HOOK REFINERY

ONE YEAR INJURY FREE

Marcus Hook, PA - March 2011

In recognition to the outstanding leadership and corporate safety culture provided by Sunoco, AET would like to extend our thanks and appreciation to the Marcus Hook Refinery in achieving "One Year Injury Free" recognition award.

The March 2010 - March 2011 period not only included AET, but over 20 other contractors at the refinery. These included transportation, operations, mechanics, pipe fitters, welders and electrical trades to name a few.

The Certificate of Excellence in Safety Performance awarded is a testament to the leadership, commitment and strong communications maintained at the Marcus Hook Site.

AET has been providing environmental consulting/laboratory services to Sunoco's Marcus Hook Refinery since 1995. Over the last decade, AET's on-site and off-site project managers have remained unchanged. Special thanks to Mr. Roy Mosaicant, CIH and Anthony Keir of AET's Management Staff.

As inscribed "Safety is key to being accident free". Being safe involves daily preparations, precautions and preventions as well as routine updates and training. Being safe is a continual work action made easier by the synergy with our client as well as the other professional contracting firms and trades with whom we interact everyday at the refinery.

AET is a nationwide environmental service corporation headquartered in Media, PA. Diversified environmental consulting/contracting services are provided; a listing of 29 representative service capabilities are detailed in our website www.aetinc.biz. AET is a recognized industry leader with a reputation for quality, client satisfaction and cost effective management of environmental risk designed to solve your environmental needs.
