PRESS RELEASE ZERO OSHA Recordable Injuries in 2010

PHILADELPHIA, PENNSYLVANIA 2/2/11: For the 6th consecutive year (2005 - 2010) AET was awarded a Certificate of Excellence for Safety Performance for AET's work at Sunoco's Northeast Refineries. In 2010, AET's employees worked over 9,000 hours at Sunoco sites without a lost time injury.

According to Roy Mosaicant, CIH, Senior Vice President of Accredited Environmental Technologies, Inc. (AET) "this award demonstrates AET's personnel continued commitment to site safety". Refineries dictate strict codes of safety performance due to the flammable and hazardous chemical conditions which are present on a daily basis. AET's services are performed 24/7 and includes environmental consulting during general maintenance and repairs as well as during shutdowns where millions of dollars are at risk when project schedules are not met.

As the Award Certificate states ***YOU MAKE A DIFFERENCE***. At AET, Safety is Personal. The ***YOU*** includes each individual of our professional staff at the SUNOCO sites. Special thanks to our site leaders Dung Ung and Tony Smith at the Philadelphia refineries and Anthony Keir at the Marcus Hook refinery for their continuity of service. Each has been AET's team leader at their respective site for over 6 years and are responsible for safety on a daily basis.

Safety Pays Dividends: AET's 2011 insurance renewal included an approximate 40% reduction in our workers compensation insurance premiums due to a significant reduction in our Experience Modification Rate (EMR). The EMR is calculated by the PA Department of Labor and Industry and used as a multiplication factor to determine workers compensation premiums. EMR is directly based on the company injury rates and safety record. In 2010, AET personnel worked on over 1151 separate project job sites throughout the United States.

AET is a nationwide environmental service corporation headquartered in Media, PA. Diversified environmental consulting/contracting services are provided; a listing of 29 representative service capabilities are detailed in our website www.aetinc.biz. AET is a recognized industry leader with a reputation for quality, client satisfaction and cost effective management of environmental risk designed to solve your environmental needs.
